PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building scalable web applications using React.js, Next.js, TypeScript, Node.js, MongoDB, and PostgreSQL. Experienced in designing secure REST APIs, authentication systems, and cloud-integrated applications. Passionate about AI-powered software development, prompt engineering, and emerging technologies, with a strong ability to learn and adapt quickly. Currently contributing to production-grade client projects as a Full Stack Developer Intern.

SKILLS

Languages : Javascript, Typescript, Python(Basic), CPP, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Shadcn/UI, Responsive Web Design

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, Firebase Authentication

Databases: MongoDB, PostgreSQL, Prisma ORM

Cloud & Tools: AWS S3, Git, GitHub, Postman, Vercel

Core Concepts: Authentication & Authorization, CRUD Operations, API Integration, Database Design, Reusable Components

AI & Emerging Technologies: Prompt Engineering, NumPy, Pandas

EXPERIENCE

Full Stack Web Developer Intern – SkyBrance Tech Private Limited, Siliguri APR 2026 - Present

- Engineered responsive web applications using React.js, Next.js, and Tailwind CSS for multiple client projects, ensuring pixel-perfect designs and cross-browser compatibility.
- Architected RESTful APIs with Node.js, Express.js, TypeScript, and MongoDB, implementing efficient database queries and error handling.
- Implemented secure authentication and authorization workflows using JWT and role-based access control for production-grade applications.
- Participated in daily stand-ups and sprint planning, delivering features on schedule across client projects.

PROJECTS

FULL STACK BLOGGING PLATFORM

[LIVE DEMO] [GITHUB]

Tech Stack : React.js, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Firebase, AWS S3

- Architected a full-stack blogging platform with secure email and Google authentication using Firebase and JWT-based authorization.
- Engineered RESTful APIs for blog creation, comments, likes, notifications, and tag management with proper validation and error handling.
- Integrated AWS S3 with pre-signed URLs for secure cloud-based image uploads and media storage.
- Built protected routes and a scalable backend architecture ensuring secure content management and seamless user interactions.
- Implemented real-time notifications and a responsive UI for optimal user experience across devices.

FEEDBACK FUSION

[LIVE DEMO] [GITHUB]

Tech Stack : Next.js, TypeScript, PostgreSQL, Prisma ORM, Clerk, Tailwind CSS, Shadcn/UI

- Developed a full-stack feedback management platform with an intuitive dashboard for tracking and managing user feedback.
- Implemented secure authentication and authorization using Clerk to protect user data and application features.
- Leveraged PostgreSQL and Prisma ORM for type-safe database operations and efficient data access patterns.
- Built responsive, reusable UI components with Tailwind CSS and Shadcn/UI, ensuring consistent design language across the application.
- Designed the database schema and optimized queries for real-time analytics and reporting.

URL SHORTENER & ANALYTICS PLATFORM

[LIVE DEMO] [GITHUB]

Tech Stack : Node.js, Express.js, TypeScript, MongoDB, JWT, REST APIs

- Architected a scalable URL shortening platform with JWT-based authentication and user management.
- Designed RESTful APIs for URL creation, redirection, update, deletion, and analytics tracking.
- Implemented click-event tracking to capture user engagement metrics, including click history and performance analytics.
- Built protected dashboard APIs for managing links, monitoring traffic, and viewing real-time usage statistics.
- Designed MongoDB schemas and optimized database queries for efficient URL lookup and analytics aggregation.
- Implemented unique click tracking using cookies and device information for accurate analytics.
- Added support for custom short URLs and link expiration management.

EDUCATION

Bachelor of Technology in Computer Science & Engineering (AI & ML)

Siliguri Institute of Technology (MAKAUT) | 2023 - current

CGPA :- 7.3/10

Higher Secondary (WBCHSE)

Purunda Ram Krishna Siksha Sadan | 2021 - 2023

Percentage :- 76%

Secondary (WBBSE)

Bandhuchak Gaya Prasad Siksha Niketan | Year of Passing :- 2021

Percentage :- 77.7%

ACADEMIC & PROFESSIONAL STRENGTHS

- Strong Programming Fundamentals - Data Structures & Algorithms - Object-Oriented Programming - Software Development - Problem Solving - Analytical Thinking - Team Collaboration - Communication Skills - Time Management - Adaptability - Quick Learner
